Commissioner for Patents
Alexandria, VA 22313-1450

Sir:

Applicant hereby petitions for the revival of the above-identified application. On July 13, 2004, this patent application became abandoned because the Applicant failed to respond to a non-final Office Action mailed on November 19, 2003 (this information was obtained in a telephone conversation with U.S. Patent and Trademark Office (PTO) personnel).

The office of Applicant's undersigned representative did not receive a copy of either the non-final Office Action or the Notice of Abandonment ("the Notice") from the PTO or the prior law firm of record, which was the Law Office of John Schipper (Schipper). As Schipper was no longer responsible for the file, the PTO should have forwarded the Office Action and the Notice to the office of Applicant's undersigned representative.

A practitioner associated with the office of Applicant's undersigned representative filed a "Combined Statement under 37 CFR § 3.73(b)-Establishing Right of Assignee to take Action and Power of Attorney by Assignee of Entire Interest (Revocation of Prior Powers)," which the PTO

stamped as received on April 8, 2003. The new Power of Attorney included a Change of Address. **A copy of a complete set of the as-filed documents is enclosed.**

Accordingly, as Applicant's representatives properly filed a new Power of Attorney and a change of address, and the PTO did not change the mailing address, Applicant's undersigned representative respectfully requests that the PTO *withdraw the status of abandonment* and *issue a new Office Action* to Applicant's undersigned representative.

Applicant believes that no fees are due in connection with the filing of this paper. Nevertheless, the Commissioner is hereby authorized to charge any fees which may be due to Deposit Account No. 50-0388 (Order No. SUNMP328). A copy of this petition is attached.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

Respectfully submitted,
